

“Therefore encourage one another
and build each other up,
just as in fact you are doing”

[1 Thessalonians 5:11]

Benefits

Watch as churches and ministries begin to collaborate on who is helping each family in the community and as more ministries and families get the help they need because their needs appear on far more web sites, not just one.

Meet The Need is a "behind the scenes" internet based service that brings the world of local missions into the 21st century. Churches have traditionally struggled to process, filter, and communicate (to its members) the vast array of needs of ministries and/or families in the community. Ministries have no effective way to share their volunteer and resource needs with the members of hundreds of local churches.

Your organization exists in large part to bridge those gaps and help churches and ministries unite and mobilize to serve those in need.

You're doing the best you can via pen, paper, phone calls and emails but in this modern age where social networking and online shopping connect so efficiently, you could use help!

Meet The Need is the first Fortune 500 level platform ever developed to unite the Body of Christ within a city to serve those in need. For organizations like yours who share this vision, working with Meet The Need means a huge step forward toward making that vision a reality!
